

## VALE, WHALEY, VALE.

The Erstwhile Republican Boss  
Clasps Hands With Populists.

## HE REVEALS SOME STATE SECRETS

Of the William Higgins Administration—Places His Bolt on High Grounds of Principle.

The Republican party has lost one of its most active workers in Topeka in the person of E. B. Whaley. He has announced that he will not support the Republican ticket but will render the Populists all the assistance in his power.

Mr. Whaley served several terms in the city council and was a candidate for the Republican nomination for the legislature in the district which includes the Fifth ward and Potwin, four years ago and was beaten in the convention by only a few votes. Last year he was defeated for the nomination for county clerk in a close contest in which Chas. McCabe was nominated. He has been a member of both the county and state central committees and was always considered a successful political worker.

The Populists are jubilant over the acquisition of Whaley, and the secretary of the state central committee, R. H. Semple, says that he has agreed to take the stump against the Republicans in Shawnee county.

A Journal reporter called upon Mr. Whaley and found that the cause of his desertion was a fact. "I shall not support the Republican ticket," he said. "I am sorry that Hoch was not nominated for governor, for he would have received my support. As it is I am done. I have worked as hard for Republican success as any one in Shawnee county, but I can no longer support the Republican party when it has gone into the hands of the railroads. There are only two men on the state ticket who were not nominated by the railroads—they are Stanley of Lawrence and Cole of Girard. I can say nothing of Cole because I don't know him, but I understand that he has never been a railroad lawyer."

"I understand that Morrill first got his start in disposing of railroad lands in the northern tier of counties, and he did that so successfully that he was one of the 'big four' nominated and elected to congress by the influence of the roads."

"The railroads own the Republican party. I was in a position to see the state central committee where I found that to be a fact. It was the railroads that run the last Republican campaign, and they will run this, and that is why I am tired of this thing."

"I believe that the mass of the voters do not know this and that ninety per cent do not know the facts, but the other ten per cent do know all about it and vote from the result."

"It was the railroads who were responsible for the legislative war two years ago. They knew that with a Populist senate and house the minimum freight rate bill would be passed and they set about to change the complexion of the regularly elected house. Why did the canvassing board have W. J. Stagg, one of the shrewdest manipulators of figures on hand when the returns came in? Do you know that when those 'ties' were drawn that Bill Higgins had mulligan on his fingers and the right paper stuck to them?"

"Why was Geo. L. Douglass turned down in the state convention? Simply because he fought the railroads. He did that from the time he was first elected to the legislature and of course he couldn't be nominated. He is not the kind of men the railroads want."

"In the recent primaries in this city it was the joints and railroads that nominated Veale. They voted 500 Democrats and no one will ever know how many repeaters. Our primaries can never be pure until the registration of every voter with the county central committee is made."

"People will say I do this because I am sore but that is not true. I don't ask for anything from the Populists—I don't want anything but I am tired of the way things are going in the Republican party."

"Now look at the two old parties in congress. They are together on the money question and by the time the Democratic senate gets through with the tariff bill there will be very little difference between it and the McKinley bill. That is pretty hard on the people who have listened to men who told them they must whip the Democrats and then told the Democrats that they must whip the Republicans to find that after all there is no difference and that the old parties are alike in principle."

"This talk of the Populists ruining the state makes me tired. The present condition extends over the entire world and it was the Populists who were the prophets who told us it was coming. They haven't hurt this state for we find the same conditions existing in the states not controlled by the Populists and in New York and some of the other states it is worse."

"I have thought of offering my services to Breidenthal, but I haven't done so as yet and do not know that I will, and I do not know whether I should be accepted if offered. My physical condition is such that I would probably not stand the work of a campaign, but I will do what I can in Shawnee county anyway."

## Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## LOCAL MENTION.

Rev. S. C. Coblentz, pastor of the U. B. church, left the city today for Elkhardt, Ind., to attend the convention of the Y. P. C. U. and Y. P. C. E. held at that place. He expects to travel through the east for about two months, laboring in the interests of the U. B. church of this city.

A complaint has been filed with the secretary of the city board of health that there are too many dogs on Lincoln street between Sixth and Eighth and Eleventh and Huntoon. The new city scavenger will have the pleasure of relieving what murderous instincts he may possess on them as soon as the council confirms him.

Col. Vinette of the commonwealers, now in the city, denies that the commonwealers arrested at Lamar, Colo., yesterday for trying to steal a freight train, belong to his regiment. He says they must belong to the Dennis Smith San Francisco regiment.

The city electric light company now has in operation 184 arc street lights. Of these 150 are on this side of the river and 34 are north. With those of the other two companies this makes 410 arc lights and nearly 2,000 incandescent lights in the city, and lights are still being put in.

In revising the list of condemned sidewalks Mr. Fulton's committee released more than one-half of those listed in both North Topeka and South Topeka. The same rule was applied to other suburban walks where the travel is light.

In the heart of the city, however, where the walks are used incessantly, very few were released from condemnation, and every effort will be made to have the main traveled walks rebuilt or substantially repaired, as the case may demand.

## A "WAR" INCIDENT.

R. B. Welch Explains an Occurrence in Which He Took Part.

To the Editor of the State Journal.

In your editorial of Monday and by various persons during the past few days "Welch's break in calling upon the men in the Santa Fe shops during the war of 1893," was alluded to in such manner that I feel that I ought to publicly say something about it.

I was chosen to the command of the assistants to the sergeant-at-arms over my protest, made before more than a hundred men now living in Topeka. After we were in Representative hall, a company of militia came marching into the state house grounds with drum and fife and it was reported to me that this company had orders from the Governor to expel the legislature from Representative hall at once.

I know of no other purpose for which we were there except to repel any such attack if made. We were then without arms except that a few of us had revolvers. I felt perfectly justified in informing any body of loyal men within reach that we were about to meet their aid. The telephone was in the sergeant-at-arms room with the door locked. In breaking this door down the matter got into the press dispatches. Elwood Peffer arrived at the telephone first and undertook to send a message to his paper. I picked him up and set him outside the small telephone room and then called upon Mr. George R. Peck who was absent. I then called upon Mr. A. A. Hurd and asked that the fact that an attack was about to be made. He communicated to the men in the shops as the nearest body of brave men I could reach.

I did not request that the men at the shops be ordered out for any purpose. I have never apologized for this act and I wish no friend of mine to do so for me.

Many persons could have performed the duty then laid upon me much better than I, and especially is this true of some who were not there. All I wish to say is that the duty came to me unsought, I did the best I could in the seeming emergency and I offer no apologies.

The legislature was satisfied with my conduct and sent to me an engrossed resolution giving to me more credit than I deserved. This engrossed resolution is now framed and hangs in my office. I am in no way responsible that the facts were misrepresented or that the Populists claim that the A. T. & S. F. railroad company runs the Republican party and dictates its nominees.

I communicate these facts to correct the impression that a break was made. I would make the same "break" under the same circumstances every day in the week. I am now always ready to be against anarchy and mischief.

Respectfully,  
R. B. WELCH.

TOPEKA, JUNE 20, 1894.

## MR. SMEDDICK'S HAT.

It Is Responsible for a Legal Event With Mr. Chivers.

T. J. Smeddick, the civil engineer who was for a number of years connected with the city engineer's and street commissioner's departments, was in the police court today charged with petty larceny. The case appears to have grown out of a misunderstanding, and the defendant was promptly discharged.

Mr. Smeddick left an old plug hat at C. Chivers' renovating establishment last week to be cleaned and blocked. He thought Mr. Chivers said he could have it last Saturday. Chivers says he didn't. Mr. Smeddick called for his hat Saturday, and it wasn't there. He called again yesterday afternoon, and still it was not quite ready. Smeddick demanded, as his hat was not done, that he should be given another hat, or else his old one whether done or not. Chivers refused to give up the old hat unless Smeddick paid 50 cents for the work already done on it. Smeddick wouldn't hear to this for a minute, so he took an old hat that he thought the hat he took was his own. Chivers had Smeddick arrested for petty larceny and Officer Carruthers served the warrant. Chivers will get the hat back, and Smeddick will get his when it is done.

## TO ARREST MISS OSBORN.

A Statement That Clinton Osborn's Daughter Will Be Tried for Murder.

It is stated that Miss Osborn, daughter of Clinton Osborn, the slayer of Charles B. Hamble, of Holton, is about to be arrested for conspiracy in the murder. The rested for witnesses in the case are said to be able to prove that Miss Osborn said more than once, "If he don't marry me I will have him killed." In view of the subsequent murder these words have to the friends of Hamble more than ordinary significance. She will probably be placed in the county jail here.

It is also reported that an examination by physicians reveals the fact that the charges against Hamble that he had betrayed Miss Osborn are false.
